### **Orthopaedic Procedures and Surgeries**

We prepare every quote for the surgery and the stay individually for each patient. The price depends, among other things, on the complexity of the underlying medical problem, the number and type of implants used, and the duration of the hospitalization.

Exemplary cost estimations (including basic materials for the procedures) are as follows:

Knee arthroscopy	6 500 PLN
------------------	-----------

Patella stabilization	9 900 PLN
Carpal tunnel surgery	2 000 PLN
Arthroscopic shoulder stabilization	10 500 PLN
